ALLOWANCE

Response to Arguments & Pre-Appeal Brief Request

1. Applicant's arguments, see pages 205 of the second pre-appeal brief request, filed on April 14, 2006, with respect to claims 1-20 have been fully considered and are persuasive. The rejection of the claims 1-20 has been withdrawn.

Allowable Subject Matter

2. Claims 1-20 are allowed.

3. The following is an examiner's statement of reasons for allowance:

4. The instant invention defines an apparatus for locating and accessing image data stored on a first image storage unit at a first location and a second image storage unit at a second location in a picture archiving and communication system (PACS). The claimed invention distinguishes over the prior art by the manner in which the first and second interface unit functions. The claimed combination allows for improving a PACS system.

PACS systems are conventional. However, the prior art of record fails to teach a second interface unit located at the second location and arranged to store second stored image data of the second patient on the second image storage unit in response to the second imaging data and to store second stored identification data on the server located at the first location in response to the second identification data. These elements in combination with all of the other elements of the claims are not taught or fairly suggested in the prior art of record. The dependent claims 2-8 and 9-20 are allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
